Dental Instruments Catalog

[WWW.EASMARIND.COM](http://WWW.EASMARIND.COM)

# Well Come to Easmar Industries:

Welcome to the Easmar Industries on-line catalog, where you may find a precise range of Dental Instruments. Thanks to the great 10 years working experience with the production of high quality dental instruments.

We strive to provide a wealth of accurate information, competitive prices, and great customer service to facilitate the purchasing process. To this end we work diligently maintain the best possible database of information on operating room and dental instruments supplies that is available in the market.

Our goal is to help individuals research and purchase Dental Instruments in a one stop-shop type of environment on the Internet as soon as possible.

## **Custom Manufacturer and Private Labeling:**

As a manufacturer we have the ability to custom manufacture and private label any of our products. A variety of finishes are available. Some of our more common finishes include: sand blasted (matte), polished (mirror), electroplated (gold), black oxidized, anodized, satin, blue and gold titanium coating. Custom orders are available to suit the customer's preference. Please contact with your requirements and we will be happy to meet your design needs.

Our surgical products development team assists our customers with component development by leveraging our manufacturing expertise to create cost effective designs and manufacturing solutions for surgical instruments. Our prototype capabilities range from single parts for test samples to thousands of pre-production parts.

## **Quality Policy:**

We are committed to taking care of our customers. We demonstrate this commitment by striving to exceed their expectations, both with the quality of our products and the services we provide.

## **Quality Objectives:**

The top level objectives of the Quality Management System are:

- To maintain a level of quality which enhances Unique Medical Systems reputation with Customers.
- To ensure compliance with relevant statutory and safety requirements.
- To endeavor, at all times, to maximize customer satisfaction with the services provided.
- We maintain the highest possible quality-level by strict quality control based on

## SCALING PROBES

### HANDLE OPTIONS

Available with/without  
colour marking

Probes are precision fabricated to provide accuracy for intraoral gauging. Probes with extra fine, sharp points for diagnosing tartar or concretions, caries, filling and tooth morphology. All probe instruments are designated in millimeters. Avoid temperature above 200°C / 398°F, at which point your Hi-Lite Probe markings may become discolored.
